## FRIENDS OF THE RARE BOOK ROOM

LIBRARY OF THE NEW YORK ACADEMY OF MEDICINE, INC.

The Library of The New York Academy of Medicine ranks as one of the great medical libraries of the world. Its maintenance is costly, and the effort to keep up to date on current books and periodicals has made it necessary to institute strict economy in adding to the unique collections housed in the Rare Book Room. Realizing this, a group of the Fellows of the Academy in 1946 organized "The Friends of the Rare Book Room of the Library of The New York Academy of Medicine," which functions independently, but with the endorsement of the Academy Council. The aim is to collect annually funds adequate for the purchase of such items as the Librarian deems desirable for the Rare Book Room. You can show your interest and support by becoming a member.

## CLASSES OF MEMBERSHIP

## CENTRAL REGISTRY FOR SMALL-BOWEL ULCERS

An apparent increase in the incidence of small-bowel ulceration has led to the establishment of a **Small-Bowel Ulcer Registry**, for compiling relevant clinical and pathological data, to facilitate the determination of the etiology of this condition. It is hoped that all cases of small-bowel ulcers, regardless of underlying disease or the kind of medication administered, will be reported to this agency.

For further information and registration forms, address:
